***Objectives***

---

We are very pleased to have Pr Verena Affolter and Dr Kerstin Bergvall as our invited expert pathologist and dermatologist this year for our annual seminar.

This one and a half-day workshop will allow participants to discuss a variety of dermatopathology cases with the speakers and share their experience. Participants will enjoy the cases through digital microscopy, as well as lectures.

All attendees are kindly requested to provide non-tumoral dermatopathology cases from their own daily practice in canine or feline histopathology. The submitted cases should include complete clinical history, gross pictures, stained histological slides and potentially unstained slides for ancillary methods. Digitalized sections will be used during the seminar.

The dead-line for case submission is **30<sup>th</sup> June 2017**. Additional information is under "*Slide session information*" section below.
